2021
From Treatment Planning to Surgical Placement

This continuing education course will train you in Columbia University College of Dental Medicine’s (CDM) philosophy and conceptual approach to Implant Dentistry.

This comprehensive continuum is designed for the experienced generalist and specialist practitioner seeking to improve the skills and knowledge required for successful implant placement. Training in patient evaluation, treatment planning, surgical placement and implant prosthetics will be provided along with model-based demonstrations with major implant systems. Learn step-by-step techniques to allow for safe and predictable implant placement.

**Course Directors**

Dennis P. Tarnow, DDS  
Clinical Professor of Dental Medicine, Director, Implant Education, Columbia University College of Dental Medicine; Private Practice in Implant Dentistry, NYC

James B. Fine, DMD  
Professor of Dental Medicine (Periodontics), CUMC; Senior Associate Dean for Graduate Education, Chief Practice Director of Faculty Practices, Columbia University College of Dental Medicine

**New LIVE Virtual Format**

We are excited to announce that this year’s program will be delivered as a live virtual course and will include both didactic and interactive model-based demonstrations.

**Part I: Didactic and Model-based Demonstrations**

This course will enable you to:

- Understand the surgical and restorative principles of esthetic implant placement
- Understand the use of CBCT and treatment planning software in developing treatment planning for the partially or fully edentulous patient
- Enhance your surgical skills for implant placement
- Learn advanced prosthetic treatment planning
- Understand alternative methods of impression making, abutment selection, temporization and final restoration of implants
- Understand proper bone grafting and site development procedures
- Understand wound healing, and the effect of systemic diseases and medications on patients and incorporate into risk assessment
- Learn updated principles of socket preservation techniques

**Six Weekends**

January 9-10 • February 6-7 • March 6-7 • April 10-11
May 15-16 • June 5-6, 2021 (dates subject to slight adjustment)

Includes complimentary attendance at the 11th Annual Columbia University Dental Implant Symposium Saturday, December 11, 2020

**Part II: Clinical Implant Placement** *(optional)*

Upon successful completion of Part I of the Continuum, you have the option of performing up to two surgical implant placements on your patient. These sessions will be instructed by a faculty member in a one-to-one clinical setting. Prior to performing implant placement, all participants must first observe two implant procedures in our clinic. Additional course fees will apply.

- Participants may opt for observations only
- Customized, based on participants’ schedules during clinic hours (Mon.-Fri.)
- CE credits awarded for hours of participation

*As a result of COVID-19, our in-person courses are currently on pause for the safety and well-being of the Columbia community and campus visitors. We look forward to welcoming guests back to campus once it is safe to do so.

**COURSE CREDIT**

This course meets the continuing education requirements for the International Congress of Oral Implantologists (ICOI)’s Fellowship Credential and contributes to the maintenance requirements for ICOI Fellowship, IPS Mastership and ICOI Diplomate Credentials.

**PROGRAM BENEFITS**

- Includes complimentary attendance at the 11th Annual Columbia University Dental Implant Symposium Saturday, December 12, 2020
- Reduced tuition to future courses.
